Sherif Shukri ALQwatli

Full-Stack MEARN Developer

(+20)1110317344 | shoukrysherif5@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | Maadi, Cairo

SUMMARY

Passionate Full-Stack Web Developer dedicated to building clean, responsive, and high-performing web applications. Proficient in both front-end and back-end technologies, including **React**, **Angular**, **Node.js**, **Express**, and **MongoDB**, with experience using modern UI libraries like **Tailwind** and **Bootstrap CSS**. Skilled at transforming ideas into fully functional, user-centric solutions with a strong focus on performance, scalability, and code quality. Actively working on real-world projects and eager to contribute to a collaborative team that values creativity, innovation, and best development practices.

EDUCATION

Bachelor of Computer Science   **2020-2024**
October 6 University   6 October City, Giza
GPA: **3.48 (Very Good)**

INTERNSHIPS

Full-Stack Web Development Using MEARN   **3/2025 - 8/2025**
Information Technology Institute (ITI)   Sohag Branch, Egypt
- Participating in a **4-month intensive full-stack Web development program** focused on the **MEARN** stack (**MongoDB**, **Express.js**, **Angular**, **React**, **Node.js**).
- Building **real-world web applications**, collaborating in team-based projects, and following agile methodologies.
- Gaining hands-on experience **with RESTful APIs**, **database design**, and **frontend/backend** integration.
- Emphasizing best practices in **clean code**, **responsive design**, and **performance optimization**.

CCNA v7   **8/2023 - 9/2023**
National Telecommunication Institute (NTI)   Nasr City Branch, Cairo
- **Network Fundamentals**: Strong foundation in network concepts and protocols, demonstrated by completion of CCNA.
- **Hardware**: Hands-on experience configuring and managing switches in real world environments.
- **Firewalls**: Proven expertise in deploying and administering firewalls like FortiGate and Sophos, encompassing security rule configuration, access control, and threat mitigation.
- **Virtualization**: Proficient in virtual machine technologies, including the use of Cisco Packet Tracer for network simulation and troubleshooting.
- Network **Troubleshooting**: Skilled in diagnosing and resolving network issues using tools such as Ping.

TECHNICAL SKILLS

Front-End:
    HTML5, CSS3, JavaScript, React, Next, Angular, Tailwind, Bootstrap, Material UI
Back-End:
    Node.js, Express.js, Nest.js, MongoDB, GraphQL
Others:
    Git, GitHub

PROJECTS

ITI Graduation Project – Maskn (Real Estate Rental Platform)   **9/2025**
    Description: A full-stack rental platform where hosts can publish property listings (with admin approval) and guests can book, review, and interact with them.
    Technologies: Express.js · MongoDB Atlas · Swagger · Nodemailer · SendGrid · Multer · Cloudinary · RAG (AI Chatbot) React · Angular.
    [Live Demo](#) - [GitHub](#)

Koora App   **11/2025**
    Description: seamless ecommerce app specialized in sporting goods. Explore high-quality sportswear, gear, and accessories with fast delivery, secure checkout, and a smooth shopping experience.
    Technologies: Angular · Bootstrap
    [Live Demo](#) - [GitHub](#)

Makeup Artist APP   **10/2025**
    Description: The Makeup Artist Backend is a robust server-side application designed to manage bookings, services, portfolios, and client interactions for professional makeup artists. It provides secure authentication, organized data management, and seamless API endpoints for powering a smooth and efficient user experience on the frontend
    Technologies: Express.js · MongoDB Atlas · Swagger · SendGrid · Multer · Cloudinary · Passport
    Live Demo - [GitHub](#)

Movie App   **8/2025**
    Description: A modern movies app that lets you explore films, view details, watch trailers, and save your favorites — all in one smooth, fast experience
    Technologies: Angular · The Move Database (TMDB) API
    [Live Demo](#) - [GitHub](#)
